

# U-200 Vacuum Unit Furnaces Revamping

- ▶ Client: Motor Oil Hellas (MOH), Corinth Refineries S.A., Greece
- ▶ Basic design, Detailed Engineering design and Procurement assistance Services
- ▶ Production Capacity: 172,5 Mt/h
- ▶ March 2015 – June 2017

MOH Vacuum Distillation Unit 200 of the Lubes production complex revamp project, consists of revamping two of the existing four natural draft Fired Heaters to increase throughput capacity, maximize efficiency, and thus to reduce emissions and to save energy. A new air preheater system will also be added for that purpose. The other two heaters will be removed.
